

PRINCE GEORGE'S SOIL CONSERVATION DISTRICT

Register for the Upcoming 2022 Delmarva Soil Summit!

Whether you farm 200 or 2,000 acres, this conference will deliver information for all production systems and scales from soil health experts across the country.

[Learn more](#)

The 2022 Delmarva Soil Summit is less than two weeks away! Don't miss this opportunity to connect and learn about all things soil health.

Featuring...

Ray Archuleta
*Certified Personal Soil Scientist
Soil Science Society of America*

Heather Darby
*Agronomic and Soils Specialist
University of Vermont Extension*

Take advantage of having these agriculture experts and many more in your backyard! Don't miss this opportunity.

All participants receive networking opportunities and access to recordings of keynote and breakout sessions for one year.

No refunds or exchanges will be given. All purchases are final.

[Full ticket and registration info is available here.](#)

About the Prince George's Soil Conservation District

The mission of the Prince George's Soil Conservation District is to protect and promote the health, safety and general welfare of the citizens of the State and County, and otherwise enhance their living environment, by conserving soil, water, and related resources and by controlling and preventing soil erosion in order to preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base and protect the public lands.

The Soil Conservation District provides grading and sediment control, agricultural landowner assistance and rural preservation services to the citizens and residents of the County in order to protect the County's soil and water resources.
